EXPERT HANDS NATURAL RESULTS

By

DR. MARK A. PETROFF

THE PETROFF CENTER
LAKE OSWEGO, OREGON

P

atient dedication and hard work shows in every aspect of Dr. Mark A. Petroff's practice. At his AAAHC-accredited facility, he offers a full spectrum of specialized care in a safe, private and comfortable setting. The onsite, result-oriented medi-spa has a full menu of nonsurgical treatments that not only help patients look better, but also promote healing after a procedure. "We earn our patients' confidence by delivering the most comprehensive care, the best possible surgical results and the most satisfying overall experience," says Dr. Petroff. "We tailor our treatment to each individual's needs and always provide the most honest, realistic assessment of the outcome you can expect."

“

My goal is to create surgical results that appear natural and appropriate for each and every patient.

WHO I AM

1.

MY MOTTO

Do right, do your best and treat others as you want to be treated

2.

MOST MEMORABLE PATIENT REACTIONS

After a rhinoplasty, when a patient tears up once I remove the splint or when they comment on how easy their recovery was

3.

WHAT SETS MY PRACTICE APART

I personally perform all injectables myself. A lot of facilities offer injectables by practitioners who have not been trained as to how the specific facial muscles work. This is required for correctly administering Botox Cosmetic and other injectables

4.

THE FUTURE OF MY FIELD

The continued development of nonsurgical options for facial rejuvenation. However, there will never really be a substitute for anatomically sound surgical rejuvenation of the nose, face and neck

5.

HOW I PUT PATIENTS AT EASE

By providing a beautiful environment, a caring staff and individual attention to each patient

6.

WHEN TO CONSIDER A FACELIFT

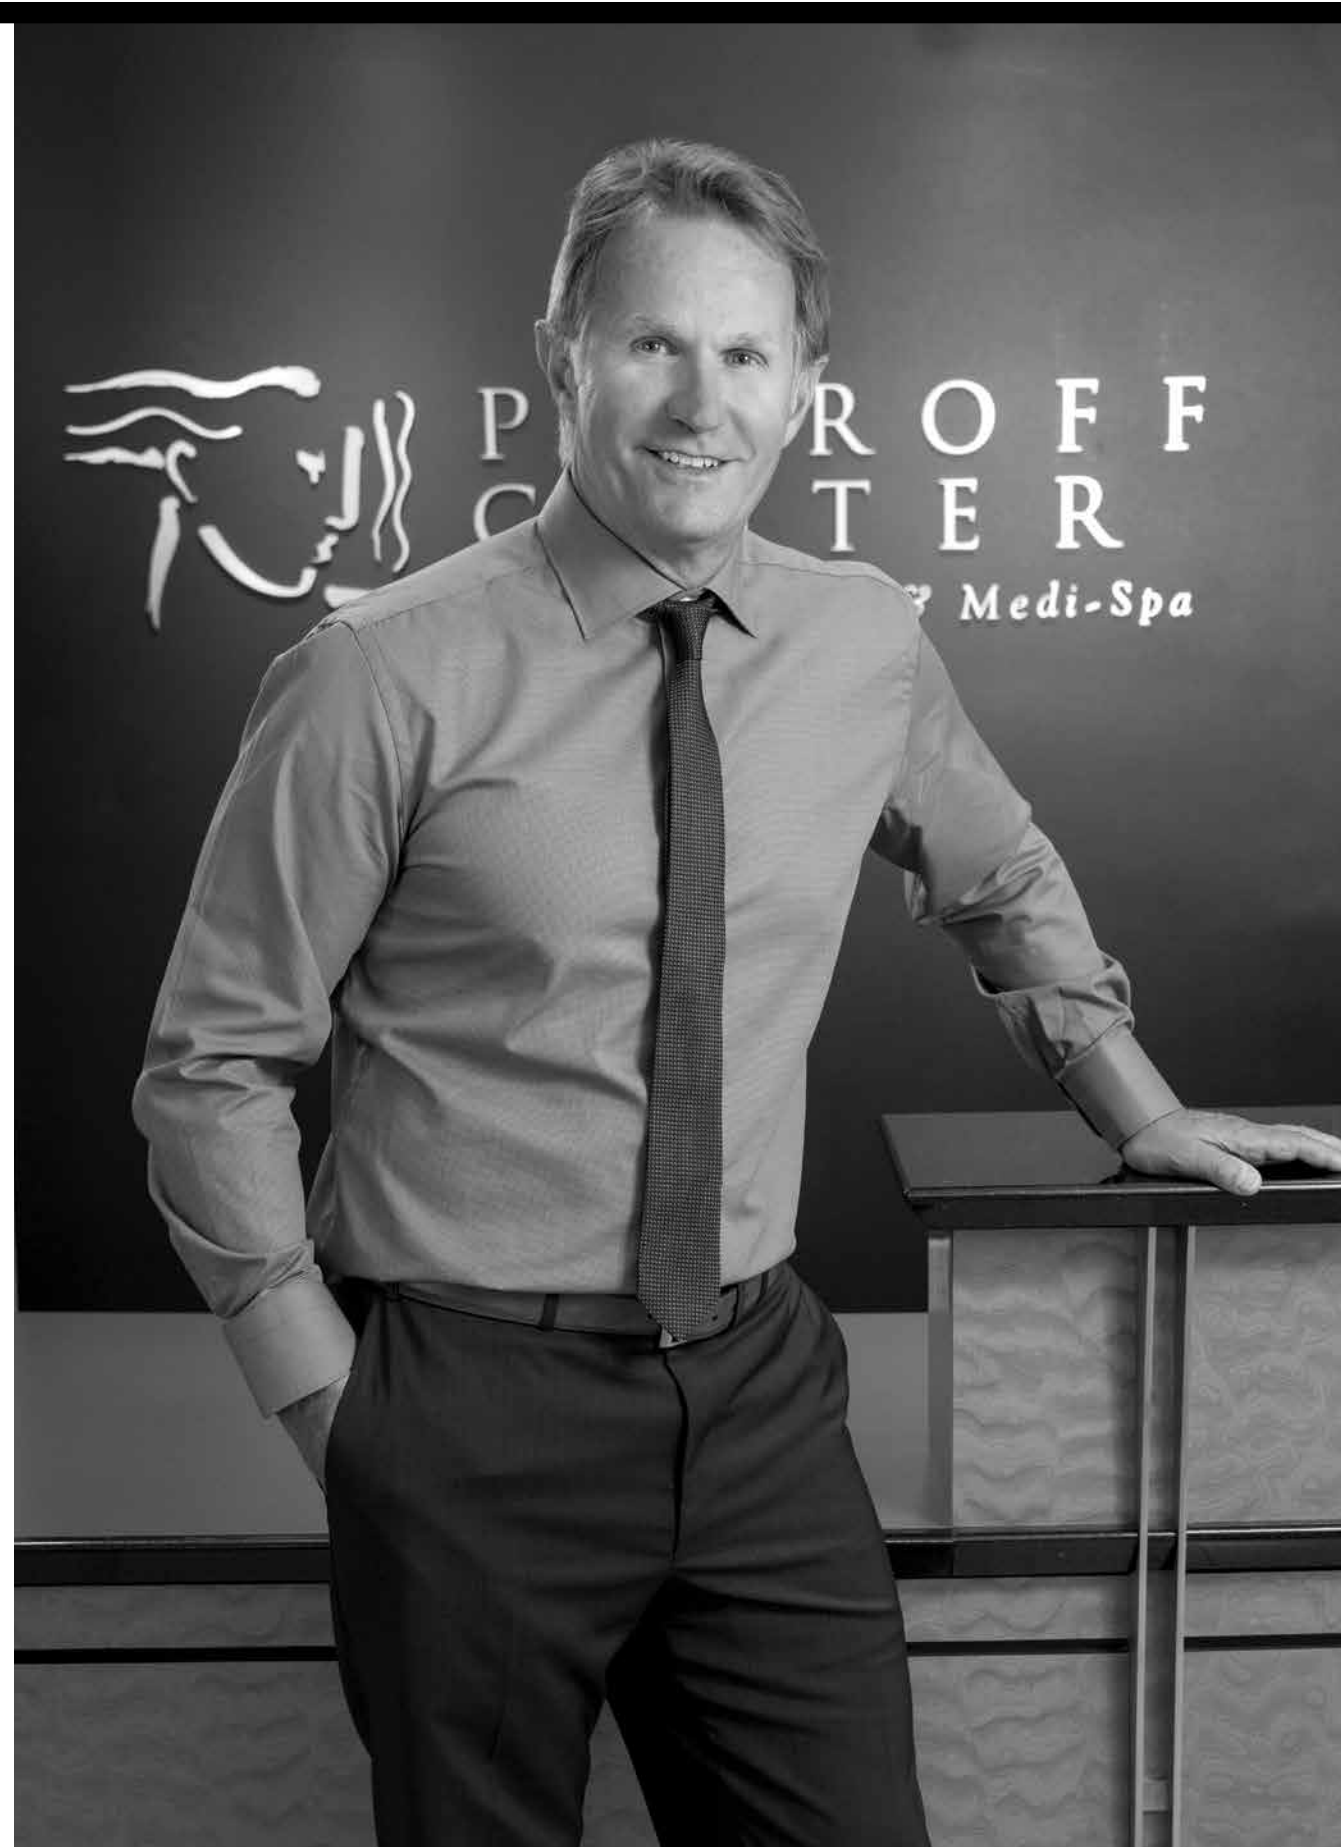

When you think you look old, tired or angry but in fact you feel great

An Elegant Profile

This 28-year-old patient underwent a rhinoplasty procedure to correct the over projection of her dorsal hump and reshape the hanging tip of her nose.
